Regina Christian School Preschool

Our desire at the Regina Christian School preschool is to offer a high quality program, focusing on excellence in learning, and encouraging a love for Jesus Christ, ourselves and others so that we may help meet the spiritual, academic, social and emotional needs of each child.

Physical & Creative

We desire to help children develop self-control, self-respect, responsibility, and respect for others.

We desire to provide opportunities for the development of language abilities, creative thinking, questioning skills, auditory and visual perception, memory, self-awareness and fine and gross motor skills.

We desire to provide the loving support each child needs to learn to trust God and enter into warm relationships with other children and adults.

The preschool follows approximately the same annual schedule as the public school system with classes starting in September and running through till the third week of June, with breaks at Christmas, Easter and other school holidays.

It is a requirement for a parent to volunteer on a rotational basis.
